

R2-2S-B3

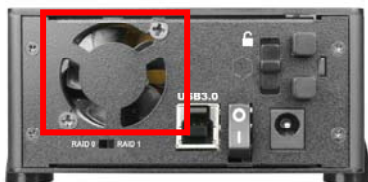

Small volume
Large capacity

R2 developed on a concept as “Laptop’s best data storage & security”, accommodates 2 of 2.5” SATA HDD with RAID 0/1 functions available and consumes less power than any standard 3.5” HDD storage devices. The palm size design increases the mobility to data with security, conveniently carrying along with laptops and saving precious data while storing it. R2-2S-B3 offers the best daily storage solution to the laptop users.

- **Noiseless Operating System**

Lower rotation cooling fan gives a tranquil working environment to the desktop.

- **Eco-design**

Less power consumption and RoHS compliant

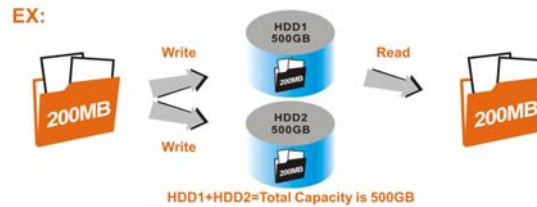

- **Compact and Intelligent Combination**

Mini sized and accommodates 2 of 2.5” SATA HDD with RAID functions available. It is very suitable for laptop users.

• Important Data Backup

For some creative people, the original ideas are more important. Thus, when data is saved in R2, RAID 1 function will automatically mirror the data from both drives. If a hard drive fails, stored data can still exist on the functioning drive and can be rebuilds to the newly replaced drive.
