

SR2600 Series

3.5" Drive RAID 0,1 Module

SR2600-2-S1 ATA 133 Host Interface

SR2600-2S-S1 SATA 1.5Ghz Host Interface

**Hot Swappable
Tray Module Design**

SOHORAID SR2600 Series is a typical of Internal Small-RAID solution which provides with RAID 0, 1 function and user friendly of operation feature. SR2600 offers 2 bays solution and accommodates 2 SATA hard drives

Features

- Support RAID Level 1, 0, the largest capacity is up to 1000GB under RAID 0.
- Support On-Line Auto-Rebuilding
- Support Big Drive. The device can accommodate 2 x 3.5" SATA HDD.
- Support Hot-Swappable
- Plug & Play Removable Tray Module Design enables you to install / replace the hard disk easily without any tools.
- No Driver Required & O.S. Independent
- Provides the RAID GUIDE GUI Software of Windows-based interface
- System Automatic Detection
- Cost-Effective & Functionality Design

The simply and safety functionality design of RAID ensures the data security, there is no professional MIS manager needed as well. It provides an economical solution with low purchase and manages cost.

Specification

Model No.	SR2600-2-S1	SR2600-2S-S1
Host Interface	ATA133/UDMA133	SATA 1.5GHz
Host Transfer Rate	133MB/Sec	150MB/Sec
Drive Interface	ATA133/UDMA133 E-IDE	SATA
Microprocessor	8032 Microprocessor RAID ASIC	
RAID Level	0, 1	
Largest Capacity	RAID 1 – Up to 500GB, RAID 0 – Up to 1000GB	

Support Hot-Swap	Yes
Support Auto Rebuilding	Yes
Cooling Fan	5.2 cm Ball Bearing Fan
Input Voltage	+5V, +12V (DC)
Dimension	177Wx270Lx180H mm
Case Material	2 kg
LCD Display	Blue Light
System Management	GUI Monitor Software and Notify by E-mail as Event Happened
O.S. Independent	Yes
Safety Guarantee	CE/FCC
Warranty	1 Year

SR2600 Controller
